研究集会名	The 3rd UMS-Oita University Joint Ecohealth Symposium on Human T-lymphotrophic Virus type1 related diseases.	
開催期間	令和7年（2025年）9月9日	
本センター担当教員	伊波 英克	
令和7年度（2025年度）研究集会の概要		
<p>The 3rd UMS-Oita University Joint Ecohealth Symposium on Human T-lymphotropic Virus Type 1 Related Diseases was held at the Main Auditorium, Level 2, Block B, FMHS, UMS. With UMS staff, students, and online participants combined, more than 60 attendees engaged with lectures covering both the basic science and clinical aspects of HTLV-1-related diseases. Following his lecture, Professor Kubota continued active discussions with participating clinicians, exchanging views on the practical management of HAM/TSP and fostering a highly productive information-sharing environment.</p>
